BEYOND
AESTHETIC CLINIC

In Partnership with MINT PDO

Before & After

Our Thread Lifts

At our flagship clinic, we've partnered with MINT™ PDO as our exclusive provider of threads. MINT™ PDO is one of the few PDO threads in the market to have been clinically studied for its safety and efficacy. Their unique and patented thread technology allows for more advanced and longer lasting lifts than competitor products. Made in South Korea, MINT Threads have been tested and developed over years in the world's leading aesthetic market.

How Threads Work

Thread lifting uses ultra-fine threads to lift and firm sagging skin, especially in the lower face where the chin often shows early signs of ageing. These nano threads are placed just beneath the skin using a fine needle and cannula, where they naturally stimulate collagen to restore a smoother, tighter contour.

Lasting Results

Results vary by individual but Threads generally last 12 to 18 months. The fine threads are almost invisible, leaving no permanent scarring. Each thread is made from bio-compatible fibres that safely dissolve over time as the skin rebuilds its own support.

Instant, Natural & Quality Results that Last without Invasive Surgery

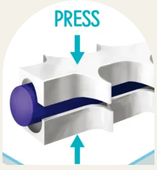
Why Choose Beyond?

- Trusted & Regulated
- 20 Years of Expertise
- Doctor-led Treatments

Why Choose Our Threads

FDA Clearance

Back by Studies



Patented Technology

Introductory Pricing

Enjoy our 20%+ early booking discounts for a limited time.

Mono Threads

Mono threads are light-touch threads, ideal for supporting PDO lifts or for subtle areas like under the chin.

10 Threads - £400
20 Threads - £720
30 Threads - £1040

PDO Threads

PDO Threads provide the most visible impact and are ideal for non-surgical facelifts.

4 Threads: Cheek Lift - £1280
8 Threads: Full Lift - £2080

Additional Threading

You can add additional PDO Threads to your treatment. This isn't always necessary but can add further definition.

Extra PDO Threads - £200 Per Thread

Regular Pricing

Standard pricing from bookings made after April 1st 2026

Mono Threads

Mono threads are light-touch threads, ideal for supporting PDO lifts or for subtle areas like under the chin.
