Mono Threads

10 Threads - **RRP £500 Now £400**
20 Threads - **RRP £900 Now £720**
30 Threads - **RRP £1300 Now £1040**

Mono threads are light-touch threads, ideal for supporting PDO lifts or for subtle areas like under the chin.

PDO Threads

4 Threads: Cheek Lift - **RRP £1600
Now £1280**
8 Threads: Full Lift - **RRP £2600
Now £2080**

PDO Threads provide the most visible impact and are ideal for non-surgical facelifts.

Additional Threading

Extra PDO Threads - **RRP £250 Per Thread
Now £200 Per Thread**

You can add additional PDO Threads to your treatment. This isn't always necessary but can add further definition.

Our Thread Lifts

At our flagship clinic, we've partnered with MINT™ PDO as our exclusive provider of threads. MINT™ PDO is one of the few PDO threads in the market to have been clinically studied for its safety and efficacy. Their unique and patented thread technology allows for more advanced and longer lasting lifts than competitor products. Made in South Korea, MINT Threads have been tested and developed over years in the world's leading aesthetic market.

How Threads Work

Thread lifting uses ultra-fine threads to lift and firm sagging skin, especially in the lower face where the chin often shows early signs of ageing. These nano threads are placed just beneath the skin using a fine needle and cannula, where they naturally stimulate collagen to restore a smoother, tighter contour.

Lasting Results

Results vary by individual but Threads generally last 12 to 18 months. The fine threads are almost invisible, leaving no permanent scarring. Each thread is made from bio-compatible fibres that safely dissolve over time as the skin rebuilds its own support.

Instant, Natural & Quality Results that Last without Invasive Surgery
